MODERN, PRACTICAL AND SPACIOUS, THE REDEVELOPMENT OF THIS EXTENSIVE FAMILY HOME MATCHED THE OWNER'S VISION PERFECTLY

PROJECT OVERVIEW

Design-led construction company Tenet Development Ltd were approached to manage the redevelopment of this high-end residential property in Oxfordshire where strong organic lines and muted tones were central to their clients' vision.

HOW WE HELPED

The brief specified a requirement for a quality, hardwearing product with texture, colour variation and a natural look. Due to the volume needed the Ted Todd Warehouse range was selected as it offered the 20mm flooring specification outlined in the brief at a price point that suited the budget.

To assist further, sample panels of were sent FOC to our client to help them get a better picture of what the flooring options would look like once installed.

OUTCOME

The neutral colour palette of this hardwood floor sets the perfect foundation for the rest of the homes' paired back interior style.

By installing 350m² of the same wood floor throughout the property, the whole space is brought together with an effortless continuity that flows from room to room to create a clean continuous appearance and a sense of uniformity that is undeniably elegant.

OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LYT, vinyl and plastics.

Talk to our team today about using sustainable wood flooring in your project.

COLLECTION	CERTIFICATION				
	 A global organisation that guarantees that felled timber is sustainably sourced	 A global organisation that guarantees that felled timber is sustainably sourced	UKTR UK regulations that confirm timber is legally harvested	 All of our floors are free from semi-volatile organic compounds	 All of our floors have very low levels of volatile organic compounds
