A VISIONARY DESIGN FOR FUTURE RESIDENTIAL ARCHITECTURE, EDEN IS AN IMPRESSIVE APARTMENT BUILDING THAT USES A PLETHORA OF NATURAL MATERIALS AND TEXTURES TO CREATE AN AWARD-WINNING PROJECT

## PROJECT OVERVIEW

When Heatherwick Studio was commissioned to design this modern apartment building in an historic district of Singapore their vision broke away from traditional modern urban model to create a bespoke building and visionary design for future residential architecture.

## HOW WE HELPED

Heatherwick Studio were inspired by the vision of a 'city in a garden,' imagined by Lee Kuan Yew fifty years prior and set out to craft homes within a garden that also harnessed the benefits of apartment living as such a natural, sustainable floor was required. After establishing the specifications and sampling, Quissac from our Aged collection was deemed the perfect fit.

## OUTCOME

The award-winning building impeccably marries the relationship between the natural environment and sustainable man-made architecture.

Attention to detail is found everywhere – the internal doors for example are milled with the map of Singapore's terrain echoing the exterior pattern perfectly, showing that everything within the project has been carefully considered.

## QUISSAC HERRINGBONE

### AGED COLLECTION

Aged European Rustic Grade Oak Herringbone  
Scrubbed Knots, Skip Sawn & Burnished Hardwax Oiled

**W:**100mm | **D:**20mm | **L:**500m

2ply Engineered

**Slip rating:** Low risk dry. Moderate risk wet.

Available in:

## PAYING HOMAGE TO CENTURIES-OLD ORIGINALS

Every Aged floor has been crafted from the finest French Oak from Quercy. We chose this Oak for its lovely decorative grain, intricate medullary rays and characterful array of knots & burrs. Every board is worked by hand and is totally unique.

- 11 FLOORS EMBODYING ANTIQUE WOOD FLOOR CHARACTERISTICS
- SKIP SAWN, SCRUBBED KNOTS & UNDULATING TEXTURES
- RUSTIC GRADE
- AGED EUROPEAN OAK
- PLANKS, HERRINGBONE, CHEVRON & PARQUET DE VERSAILLES
- 20MM THICKNESS
- 2-PLY ENGINEERED
- 6MM HARDWOOD WEAR LAYER

# OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LVT, vinyl and plastics.
