THE LOW ENERGY MODERN OFFICE SPACE INTEGRATING AN EXPERIMENTAL BIO-DIVERSE LANDSCAPE WITH A NEW COLLABORATIVE FLEXIBLE WORKING ENVIRONMENT.

PROJECT OVERVIEW

The Scott Brownrigg-designed headquarters for the international not-for-profit organisation CABI had to be highly energy efficient with detailed strategies for materials, orientation and structures that included a careful selection of materials for the building fabric, thus reducing energy consumption, providing lower running costs and offering minimal maintenance for the life span of the building.

HOW WE HELPED

Approaching a member of our commercial specification team, wood floor suggestions were presented that would deliver the passive sustainable design brief and complimented the interior design scheme through tone and texture.

OUTCOME

This high-profile, award winning landmark development is an outstanding local project embracing low impact/low-carbon design principles, successfully integrated into a bio-diverse landscape, with a living roof, attracting insects and birds, promoting, and enhancing biodiversity.

Situated in an Area of Outstanding Natural Beauty this remarkable building really is the evolution of sustainable design.

CREECH PLANK PROJECT COLLECTION

European Oak, Nature, Plank.
Brushed & Hardened Oiled
W:190mm | **D:**14mm | **L:**up to 1.86m
3Layer Engineered, 3mm Wear Layer
Slip rating: Low risk dry. Low risk wet.

Available in:

FLOORS THAT TICK EVERY BOX

The perfect introduction to Ted Todd, these are wood floor staples with a premium feel. Not just limited to surfaces underfoot, all wood in this collection is also suitable for use on walls.

- 24 WOOD FLOORS STAPLES
- BRUSHED TEXTURE
- FULL TONAL SELECTION
- CHARACTER & NATURE GRADE
- EUROPEAN OAK
- WIDE, EXTRA WIDE PLANKS & HERRINGBONE
- 14&15MM
- 2-PLY & 3-LAYER ENGINEERED
- 3&4MM WEAR LAYER

OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LVT, vinyl and plastics.

Talk to our team today about using sustainable wood flooring in your project.

| COLLECTION | CERTIFICATION | | | | |
|------------------|--|--|---|--|---|
| |  A global organisation that guarantees that felled timber is sustainably sourced |  A global organisation that guarantees that felled timber is sustainably sourced | UKTR UK regulations that confirm timber is legally harvested |  All of our floors are free from semi-volatile organic compounds |  All of our floors have very low levels of volatile organic compounds |
