Spitfire Homes

A SUPERB COLLECTION OF HIGH-SPECIFICATION 1, 2 AND 3 BEDROOM APARTMENTS SET IN A STUNNING GRADE II LISTED MANOR HOUSE THAT HAS BEEN EXQUISITELY AND SYMPATHETICALLY RESTORED.

PROJECT OVERVIEW

The Haseley Manor estate was acquired by Spitfire Homes, who specialise in creating sustainable homes and communities that inspire. This award-winning homebuilder aims to create design-led properties that their customers are proud to call home.

Part of the development was to subdivide the main manor house and convert it into thirteen one, two, and three-bedroom properties.

HOW WE HELPED

The design brief was multi-faceted: blend the new with the old whilst respecting the setting of the manor house and create a timeless design that restores the past through modern design.

The interior design style of each home feels unique while maintaining its historical integrity; many interior features are modernized versions of timeless pieces.

A herringbone floor – a design that has maintained its popularity for centuries – runs throughout each apartment and was specified via one of our Residential Partners.

OUTCOME

The careful consideration that has been given to every detail of this development has resulted in an elegantly restored building that delivers the bespoke blend of Spitfire Homes' signature style.

SANDBANK HERRINGBONE CREATE® COLLECTION

European Nature Grade Oak Herringbone
Brushed, Undulating & Hardened Oiled

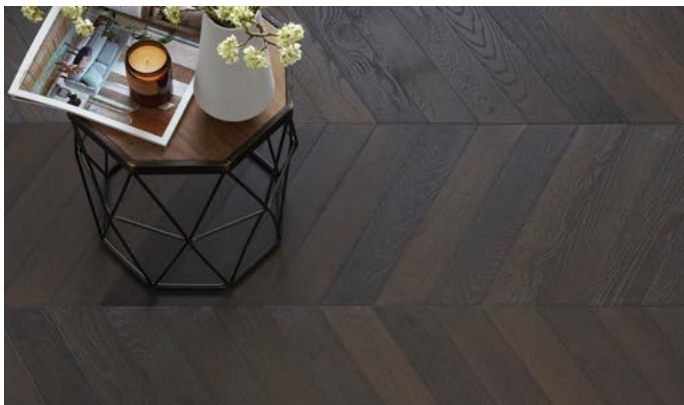

W:127mm | **D:**15mm | **L:**508mm

3ply Engineered

Slip rating: Low risk dry. Low risk wet.

Available in:

FLOORS THAT TICK EVERY BOX

Each component in this collection has been carefully designed to work seamlessly together, allowing you to mix colours and formats to create precision designs and unique patterns.

- 10 COMPATIBLE TONES
- BRUSHED TEXTURE
- EVERY PIECE UNIQUE
- PLANKS, HERRINGBONE, CHEVRON & SQUARES
- 15MM ENGINEERED
- 3MM WEAR LAYER

OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LVT, vinyl and plastics.

Talk to our team today about using sustainable wood flooring in your project.

COLLECTION	CERTIFICATION				
	 A global organisation that guarantees that felled timber is sustainably sourced	 A global organisation that guarantees that felled timber is sustainably sourced	UKTR UK regulations that confirm timber is legally harvested	 All of our floors are free from semi-volatile organic compounds	 All of our floors have very low levels of volatile organic compounds
