A FULL-SCALE RENOVATION WHICH HAS ALLOWED THE OWNERS TO TRANSFORM THEIR FAMILY HOME INTO A SERENE SANCTUARY THAT MEETS THEIR EXACT SPECIFICATION.

PROJECT OVERVIEW

This terraced Victorian property in Herne Hill, London, underwent a full-scale renovation by Bethell Projects. Situated in South London, the property was derelict and needed to be stripped back to bare brick.

Some features were able to be retained and restored, and some are new but sympathetic to the style of the Victorian time period the house was built in, such as sash windows, bannisters, and coving.

HOW WE HELPED

Having worked with Bethell Projects on a number of projects in the past, one of our Residential Specification Consultants – recommended Kinsley planks for the home.

OUTCOME

Following the renovation, the home has been transformed into a serene sanctuary. A blue colour palette has been used throughout the home to create a calming feeling.

The kitchen cabinetry continues this theme, and the darker tone chosen adds depth. Lots of hidden storage keeps the space functional, while the abundance of windows and the bi-fold doors keep the room airy and bright.

This house is a brilliant example of how a derelict Victorian terrace can be transformed and modernised while remaining sympathetic to the period it was built in.

KINSLEY PLANK ENGINEERED OAK FLOOR PROJECT COLLECTION

European Oak, Nature,
Medium Brushed, Hardened Oil
W:190mm | **D:**14mm | **L:**up to 1.86m
3-Layer Engineered
Slip rating: Low risk dry. Low risk wet.

OUR CERTIFICATIONS EXPLAINED

We go above and beyond the usual environmental and sustainability standards, and have many third party accreditations.

In short, all of our timber (whether floors or wall cladding) follow the UK Timber Regulations as standard, which verifies that all of our timber is legally harvested.

All of our floors are also SVOC free and have low VOC emissions. SVOCs are pollutants at the molecular level which are emitted from synthetic man-made materials such as LVT, vinyl and plastics.

Talk to our team today about using sustainable wood flooring in your project.

COLLECTION	CERTIFICATION				
	 A global organisation that guarantees that felled timber is sustainably sourced	 A global organisation that guarantees that felled timber is sustainably sourced	UKTR UK regulations that confirm timber is legally harvested	 All of our floors are free from semi-volatile organic compounds	 All of our floors have very low levels of volatile organic compounds
