PROJECT: BROOKWOOD VILLA

A CAREFULLY CURATED MODERN HOME SEEKING HOMAGES TO THE PAST AND A LINK TO THE NATURAL WORLD

PROJECT OVERVIEW

This private residence is a carefully curated modern home seeking homages to the past and a link to the natural world. The interior was required to reflect the fresh feeling of its location on the sunny, seaside South of England.

HOW WE HELPED

The stunning visual impact of Franklin panels when on display in our London Design Centre led to them being chosen by the client for her residential renovation in Devon, a coastline area in the South of England, experiencing the very best of the British weather. The panels were selected due to the exact match we produce through the border, meaning element-to-element continues across the entire floor.

It took no more than a week for our artisans to be on site to discuss the project directly with the client and her project managers.

We swiftly learned their aesthetic design requirements, timescales and plans and introduced them trusted local installers who were able to fit the floor panels, matching borders and cladding for stair treads, risers and profiled nosings. All of which is available through Woodworks to complement your floor.

OUTCOME

Floor to ceiling windows allow light to cascade in, highlighting the best historical features within the floor. Natural materials for the seating, tables and accents bring an organic element to the property alongside our flooring, matching the scenery in a pinch. The architectural details which our artisans crafted are also a triumph, allowing the multiple stairways to complement the Franklin floor.

FEATURED FLOOR

FRANKLIN PARQUET DE VERSAILLES ANTIQUÉ COLLECTION

Antique Oak Parquet de Versailles

Original Patina, Hand Polished Undulations & Naked Skin Lacquer Super Matt

W: 980mm | D: 20mm | L: 980mm

2Ply Engineered

Slip rating: Low risk dry. Moderate risk wet.

ANTIQUUE COLLECTION

HISTORY, BEAUTY & IMPACT

These antique woods have been reclaimed from buildings that have been demolished and understanding where the wood has come from, how it has been used and how it has been fixed is crucial. This understanding is the basis of our plan to restore the wood into an engineered wood floor fit for the challenges of modern life.

- ANTIQUE WOODS FROM HISTORICAL BUILDINGS AROUND THE GLOBE
- NEVER TO BE REPEATED MATERIAL
- FULLY RESTORED BY HAND IN OUR ENGLISH WORKSHOPS
- UPWARDS OF 100 YEARS OLD
- MULTIPLE INTRICATE DESIGNS AVAILABLE
- HISTORICAL FEATURES THROUGHOUT
- CAREFULLY SELECTED FINISHES FOR MAXIMUM DURABILITY

OUR CERTIFICATIONS EXPLAINED - RECLAIMED SUSTAINABILITY

Reclamation is a principle incredibly dear to us at Woodworks.

Not only is it where we began and blossomed our woodworking skills, it represents our sustainability mindset. Reclaimed wood flooring and wall cladding reduces environmental impact through re-use.

The wood is salvaged from the reclamation site, be it a historical building, warehouse or colonial home, before being transformed into a reclaimed floor at our English workshops.

This gives reclaimed wood a continuous lifecycle.

Many years ago, it was manufactured and installed into old buildings. It would be maintained here for decades before demolition took place, which is the key stage for us.

From here we recycle the wood, putting it back into the manufacturing stage, restarting its lifecycle again and again and increasing the longevity of the wood.

Then, throughout the years the reclaimed wood can age gracefully within your project and can even be re-worked, re-sanded and re-finished to inject new life. This does not only give woods a new lease of life, but prevents the need for more excessive numbers of trees being chopped down.

Whenever the cycle should cease, the wood is 100% biodegradable, helping your project reach carbon neutrality.

COLLECTION	CERTIFICATION

WOODWORKS BESPOKE

BESPOKE WOOD FLOOR BY WOODWORKS

By using our bespoke flooring service, you can experiment with pattern, scale, grade, texture, edge details, tone, finish and more to create a unique wood floor that you will find nowhere else on the planet.

Ordering one of our bespoke floors allows you to not only design the floor down to the smallest detail, but it's also created using a variety of handcrafting techniques in our Cheshire workshops so that the end result matches your specification perfectly.

Decades of experience shows us the importance of understanding each project's individual requirements – so we always work incredibly close with you to create a floor that complements the interior and works within your timeframe and budget.

Be sure not to limit your imagination, as no matter the project's challenges, Woodworks are on hand to bring your vision to life.
